State of Maryland 2021 Hate Bias Report

I. Scope

Public Safety Article Title 2-307 tasks all law enforcement agencies within the State of Maryland and the Office of the State Fire Marshal to provide the Maryland Department of State Police (MDSP) with information relating to incidents seemingly directed against an individual or group because of race/ethnicity/ancestry (R/E/A), religion, sexual orientation, disability, gender, gender identity, or homelessness. In compliance with that requirement, the MDSP, in partnership with the Maryland Coordination and Analysis Center (MCAC), has produced this 2021 Hate Bias Report. It contains an overview of trends in hate bias related incidents within the State of Maryland and gives statistical representation of incidents and their associated victims, offenders, injuries, weapons, and property damage during the calendar year of 2021. This report also includes a historical analysis of total incident data compared with total verified data from the previous 10 years. The information contained is limited to hate or bias incidents that have been reported to a Maryland police agency.

II. Methodology

The State of Maryland meets the National Uniform Crime Reporting (UCR) requirements via the Maryland Statewide Uniform Crime Reporting Program. This program provides procedures and the collection mechanism for reported hate bias incidents. The Maryland Supplementary Hate Bias Incident Report Form, also known as Form 11, is submitted by Maryland police agencies monthly to MDSP for data compilation. This data is analyzed and findings are released to the public in this publication annually.

While the Federal Bureau of Investigation (FBI) UCR Program compiles hate crime data regarding criminal offenses motivated by the offender's bias, Maryland Public Safety Article Title 2-307 requires the collection of data on hate crimes as well as hate bias incidents which did not result in a crime. For this reason, the FBI's statistics on hate crimes may differ from Maryland's hate bias statistics.

Incident-based data includes events that are perceived by the victim(s) or the investigating law enforcement officer (s) as motivated by hate or bias.

Such incidents may or may not be considered criminal activity. Crime-based data pertains to hate bias related crimes, which are recorded as hate or bias incidents but, more specifically, involve offenses that can result in arrests. Hate crime definitions often encompass not only violence against individuals or groups, but also crimes against property, such as arson or vandalism, particularly those directed against community centers or houses of worship. In order to provide a more comprehensive overview of hate bias related activity in Maryland, crime-based and incident-based data have been combined in this report.

When an incident is reported, the following criteria, among others, can be used to determine if the incident is bias related:

- A review of the totality of the circumstances.

- A review of the motives.

- A display or expression of any bias related symbols, words, or acts.

- The victim's perception and/or statements of any suspect(s) or witness(es).

- A prior history of similar incidents in the same geographic area or against the same victim(s).

- The demographics of the area of occurrence.

Identifying the offender's subjective motivation can make it difficult to distinguish a hate bias related incident. An incident can be verified through an investigation of the accused person or through eyewitness reports of a crime. The determination whether to charge a hate bias incident is at the discretion of law enforcement and prosecutors. The presence of any of the following criteria may be indicators that an incident is hate bias motivated and additional investigation is necessary:

- Similar incidents in or around the same location or neighborhood indicating a possible pattern.

- *Perceptions of the victim(s) and witness(es) about the incident* – This is one of the single most important factors to consider. However, victims may not readily recognize that the incident was motivated by bias.

- *Perpetrator's comments, gestures, or written statements reflect bias* including graffiti, drawings, and symbols used.

- *Differences between perpetrator and victim, whether actual or perceived by the perpetrator* – Victims and perpetrators may appear to be from the same race, ethnicity, or religion but it is the perpetrator's perception of difference that motivates the behavior constituting an incident.

- Victim was engaged in activities promoting his or her community or group.

- Incident coincided with a holiday or date of particular significance to a group.

- Localized activities of organized hate group or the absence of any other motive(s) such as economic gain.

Some incidents are not clearly identified as hate bias. However, investigative efforts may reveal the incident is hate bias motivated. Depending on the outcome of the follow-up investigation, hate bias incidents are classified as verified, inconclusive, or unfounded.

- *Verified Incident* – An incident committed against a person or property where the investigation leads a reasonable and prudent person to conclude that the offender's actions were motivated, in whole or in part, by their bias against a person's race/ethnicity/ancestry (R/E/A), religion, sexual orientation, disability, gender, gender identity, or homelessness.

- *Inconclusive Incident* – An incident where the evidence is conflicting, incomplete, or otherwise insufficient to classify as verified.

- *Unfounded Incident* – An incident in which the evidence or investigation definitively indicates that it was not motivated by bias against a person's R/E/A, religion, sexual orientation, disability, gender, gender identity, or homelessness., or that the incident did not occur.

Data Declaration

The data behind this report comes from the Maryland Supplementary Hate Bias Incident Report, Form 11, which is mandated for all Maryland law enforcement agencies to complete when a hate bias incident is encountered. The Form 11 collects information on date, time, incident type, bias motivation, clearance, victim and offender demographics, location, weapons used, injuries, value of property damage, and a written summary of the incident, amongst other things.

In 2012, Maryland added Homelessness as a protected category under the hate bias statute. In 2015, Gender and Gender Identity were also added. These additions have not made a significant impact on overall reporting as R/E/A, Religion, and Sexual Orientation largely account for bias motivations from the previous 10 years.

Other revisions to categories have included:

- Victim and offender race category was revised to White, Black or African American, American Indian or Alaska Native, Asian, and Native Hawaiian or Other Pacific Islander, multiple races or unknown.

- The revised ethnicity categories are Hispanic or Latino, Not Hispanic or Latino, multiple ethnicities or unknown.

- The following religious bias types were added: Anti-Buddhist, Anti-Eastern Orthodox (Greek, Russian, etc.), Anti-Hindu, Anti-Jehovah's Witness, Anti-Mormon, Anti-Other Christian, and Anti-Sikh.

- Bias Motivation Code categories were revised to include: R/E/A, Religion, Sexual Orientation, Disability, Gender, and Gender Identity. The previous Bias Motivation Code, Ethnicity (alone), was eliminated. Other codes, including those for Location and Property Damage Type, were updated as well.

The reports are collected by the MDSP's Central Records Division as mandated by law and are then provided to the MCAC. If a hate bias incident occurs and is not reported to law enforcement, an incident report is not filled out and is not submitted. All information included in this report is analyzed based solely on the contents of the Form 11 submitted to the MDSP. This analysis is current as of 1 July 2022. Incident reports from 2021 received after 1 July 2022 will be reflected in the 2022 Hate Bias Report.

No specific addresses or locations are collected other than the ZIP Code of where the incident took place. No names or personal identifiable information are reported to maintain confidentiality. All percentages are rounded to the nearest tenth of a percent.

III. Executive Summary

There were a total of 388 hate bias incidents reported by Maryland law enforcement agencies during the 2021 reporting period.

Key Findings

The following statistics account for all incident types: verified, inconclusive, and unfounded:

- Maryland experienced an average of 385 hate bias incidents each year from 2019 - 2021. Verified incidents decreased from 29.1% in 2020 to 26.0% in 2021.

- In 2021, R/E/A, as a category, was the most common motivation for all hate bias incidents accounting for 68.7%. On average, R/E/A accounted for 68.7% of all incidents reported from 2019 - 2021.

- Of the 347 total victims reported, Black, as a race subcategory, made up 47.6% of all victims followed by White as a subcategory, at 25.6%.

- Black males as victims of hate or bias accounted for 27.1% followed by Black females at 20.5% and White males at 15.9%.

- White males account for 23.4% of offenders and Black males account for 13.0%. Offender race and gender are not identified in 41.7% of all reports.

- Juveniles made up 9.5% of known victims and 7.7 % of known offenders of all reports.

- The highest number of incidents occurred in the month of November (11.6%) while the lowest occurred in February (3.6%) with an average of 32.3 reports per month.

- The location for 25.8% of all reporting occurred at a residence/home, 20.6% at a highway/road/alley/ street/sidewalk, and 11.6% at an academic institution; elementary/secondary through college/ university.

- In 2021, hate bias reporting at academic institutions was 45 compared to 46 in 2020. In 2019, 132 incidents were reported.

- Thirteen incidents were reported at a house of worship. Six specifically targeted the victims' religion. The other seven involved a bias against the victims' race or sexual orientation.

- In a ten-year period, Talbot County reported no incidents. Calvert, Caroline, and Worcester counties reported one each. Garrett County reported two.
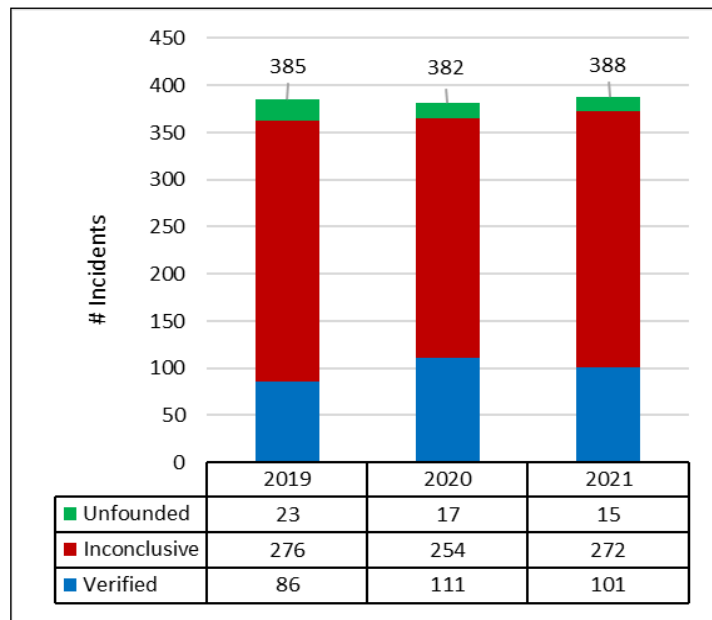

Figure 1: This is a comparison of verified, inconclusive, and unfounded reports for the last three years.
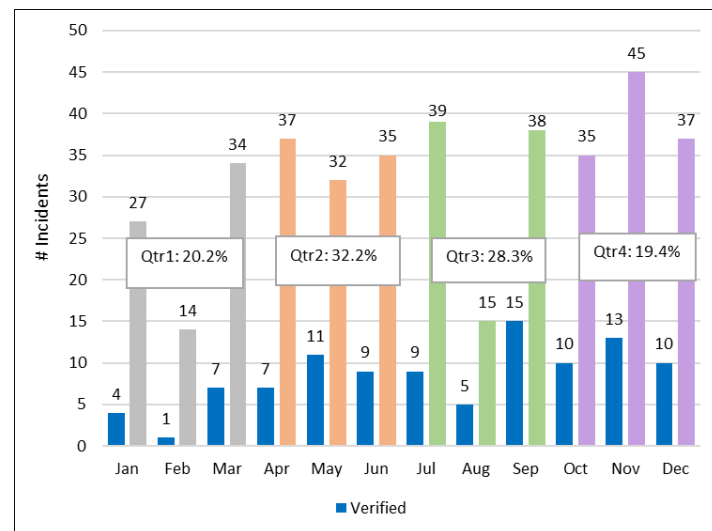

Figure 2: Verified and all incident reporting by month for 2021 are depicted here.
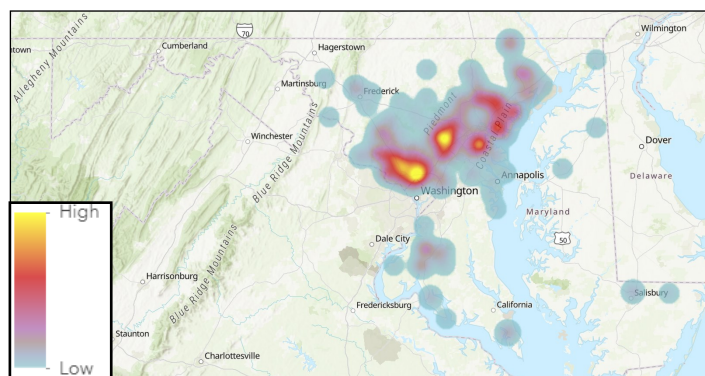

Figure 3: This heat map represents all hate bias incidents reported in 2021.

IV. Analysis by Category

Crime/Incident Classification

Crime/Incident Classification is denoted based on UCR crime codes and non-criminal incidents that correspond with data gathered from the Maryland Supplementary Hate Bias Incident Report. Vandalism, verbal intimidation and other hate bias incidents make up 27.7%, 25.9%, and 15.9%, of all incidents reported.

When inconclusive and unfounded data points are removed from analysis for 2021, the following trends are observed:

- Over two-thirds (69.5%) of the verified incidents consisted of other hate bias incidents, vandalism, or simple assault.

- Of the 105 verified incidents reported, 21.9% involved some form of assault, robbery or arson.

Crime/Incident Classification	Verified	All Reports
All Other Offenses	1	8
Arson	1	1
Assault-Firearm-Aggravated Injury	0	2
Assault-Hands, Fist, Feet-Aggravated Injury	1	1
Assault-Hands, Fist, Feet-Simple	16	54
Assault-Knife-Aggravated Injury	1	4
Assault-Other Dangerous Weapon-Aggravated Injury	4	6
Breaking or Entering No Force	1	2
Larceny Theft	1	3
Other Hate Bias Incident	33	63
Robbery-Firearm	0	1
Sex Offenses (Exclude Rape, Prostitution, and Commercialized Vice)	0	1
Vandalism, Malicious Destruction of Property	24	110
Verbal Intimidation	15	103
Written Intimidation	7	38
Total	105	397

Figure 4: The Crime/Incident Classification for all reported incidents in 2021 is compared to verified incidents here. Some incidents reported more than one crime classification.
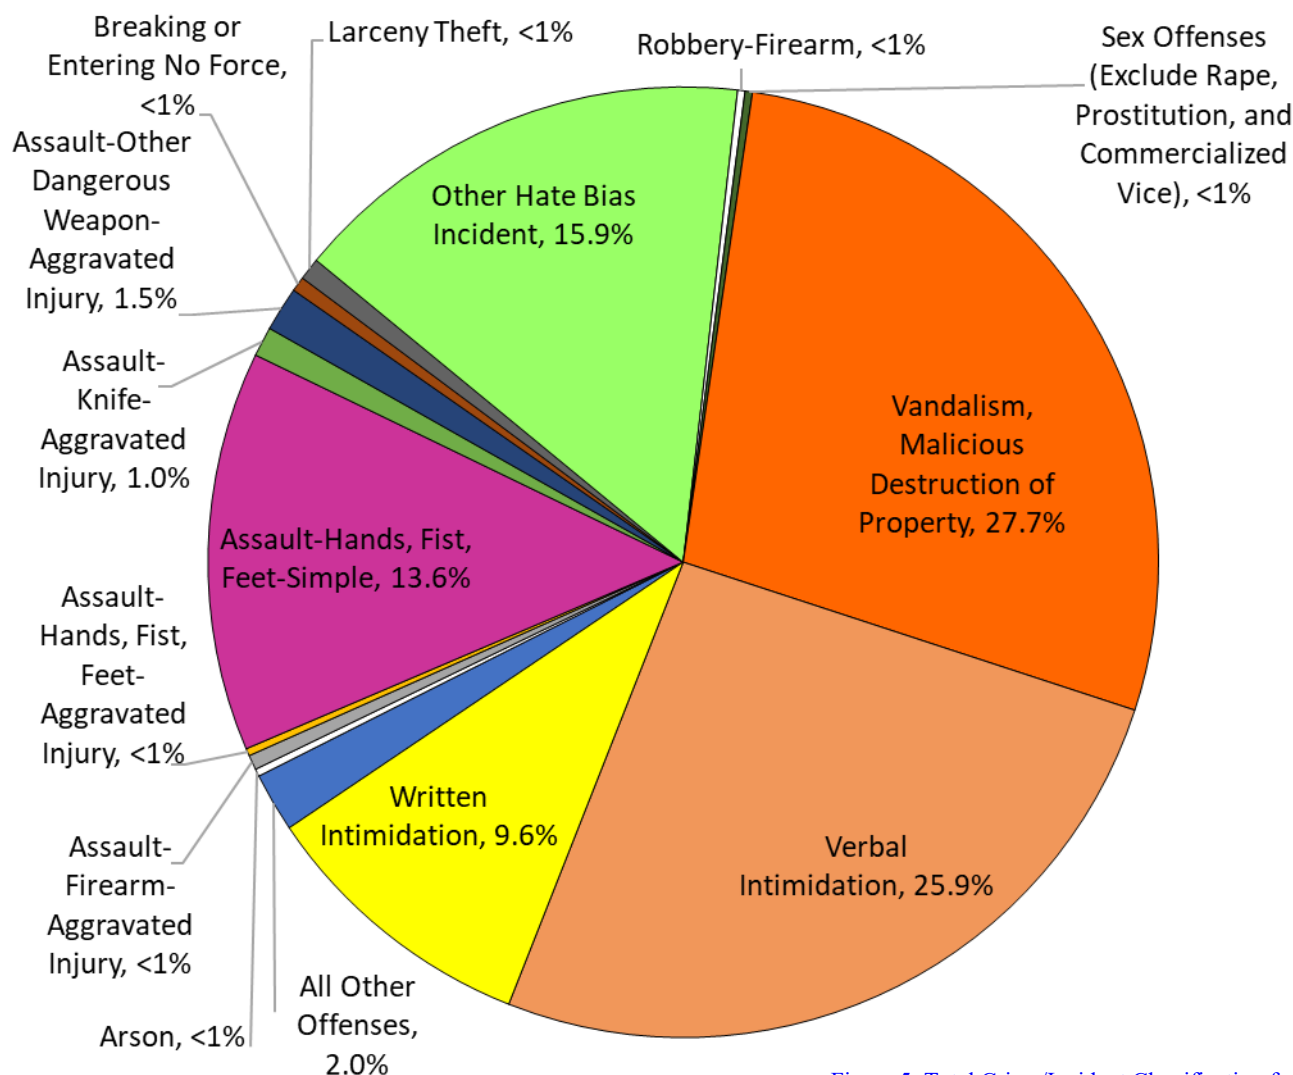

Figure 5: Total Crime/Incident Classification for all reports as a percentage in 2021 is shown here.

Bias Motivation

In 2021, R/E/A made up 68.7% of all bias motivations for reported incidents. Between 2019 - 2021, R/E/A comprised the majority of all hate bias motivations followed by Religion and Sexual Orientation.

Category	Verified			All Reports

Figure 8: Verified and total bias motivations by subcategory from 2019 through 2021 are shown here.

Victims

Victim type is categorized into individual, business, financial institution, government, religious organization, other, and unknown. When reporting victim information, all pertinent victim information is recorded, including, but not limited to: age, sex, ethnicity, religion, and sexual orientation. If reporting an event concerning a religious building, for example, the religious affiliation would be pertinent information. Of all reported incidents in 2021, victims categorized as individual comprised 75.0% followed by government at 10.1%, business at 6.2%, religious organization at 3.9%, other at 3.1%, unknown at 1.0%, and financial institution at 0.3%. Two incidents reported multiple victim types.

It is worth noting that the bias motivation may not involve the victim's race. As an example, an anti-gay incident involving an Asian male could be reported simply as an anti-gay hate bias incident.

There were 19 injuries reported in 2021; most were considered minor. One involved possible internal injuries and one involved unconsciousness. In 2020, 21 injuries were reported while 17 were reported in 2019.

Offenders

A hate bias incident can be caused by a single individual, a group of individuals, or a representative of a hate group. For 2021, 22 incidents reported two or more offenders.

Hate group ideology or symbols were mentioned on the Form 11 in 44 reports for 2021. Six verified incidents involved hate group ideology or symbols associated with Klu Klux Klan, Patriot Front, Nazi, etc.

Location of Incidents

There were 30 location types reported for 2021 which include places such as parking garages, restaurants, government buildings, department stores, etc. Of all incidents reported, 25.8% occurred at a residence and 20.6% occurred on a highway/road/alley/street/sidewalk. Academic institutions as a whole accounted for 11.6% of all hate bias incident locations, school-elementary/secondary at 9.3% and college/university locations at 2.3%.

Weapons

In 2021, 75 reports indicated the use of a weapon. In terms of verified incidents, 24 reported the use of a weapon.

Not all reports indicated a specific type of "personal" weapon used. In other cases, an incident was reported as a simple assault using hands and feet.

Arrests

There were 31 arrests made as a result of a verified hate bias incident in 2021. This is almost a 35% increase from the previous year and nearly double from 2019.

Damages

In many cases, the damage cost is reported as unknown. Known damage costs incurred for 64 incidents totaled $20,366.00. In all but three incidents, the incident type reported included some form of vandalism.

** Percent of inconclusive over total incidents reported by county.
*** Percent of unfounded over total incidents reported by county.

County Trends

- Over 80% of all hate bias reporting in Maryland during 2021 was received from four counties: Anne Arundel (39), Baltimore (83), Howard (65), and Montgomery (130).

- There were no hate bias reports submitted by the following counties: Allegany, Calvert, Caroline, Dorchester, Garrett, Somerset, Talbot, and Worcester. As such, they are not represented in Figure 14.

- Two ZIP Codes reported the highest number of hate bias incidents in 2021 at 13 incidents each. They are 21222 in Baltimore County and 21044 in Howard County.

- ZIP Code 21061 in Anne Arundel County, ZIP Code 21045 in Howard County, and ZIP Codes 20852 and 20910 in Montgomery County each reported 12 incidents.

V. Ten Year Summary

Between 2012 and 2021, the lowest total incidents reported occurred in 2014 with 155 while 2017 had the most at 398.

The largest drop in hate bias reporting was also in 2014 with a decrease of 38.5% from the previous year. Linear trend lines for all reports indicate an upward trend. Although the trend in verified hate bias reporting is on a slight upward trend, the rate of increase is significantly less compared to total reporting.

It is important to note there were additions to protected categories such as homelessness in 2012 along with gender and gender identity in 2015.

Reporting by County

Between 2012 - 2021, one county has reported no hate bias incidents. This does not suggest that having zero hate bias incidents means no hate bias incidents have occurred.
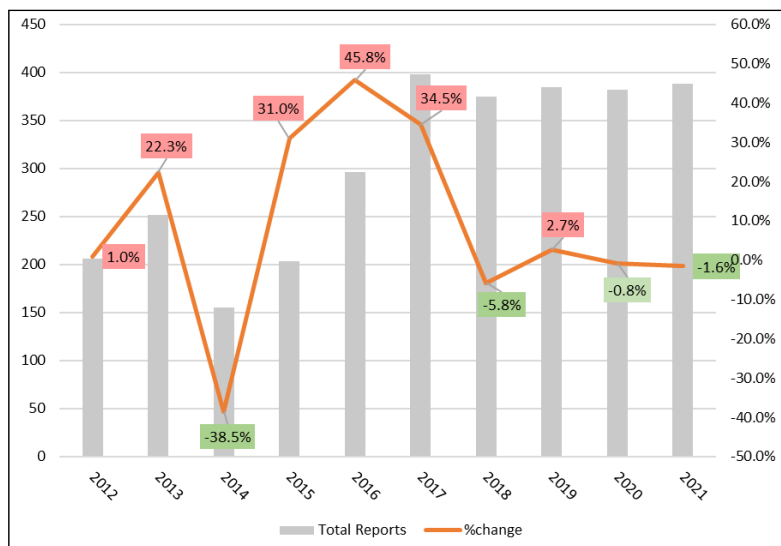

Figure 16: Shown here is the percent change by year of total reporting.

Percent change refers to change per year compared to the previous year. Late submissions in 2016 resulted in changes in total numbers reported for 2016. In 2016, 285 total reports were published. The 2017 Hate Bias Report has 295 total for 2016. One additional report was submitted even later which brings the total for 2016 to 296 reports.
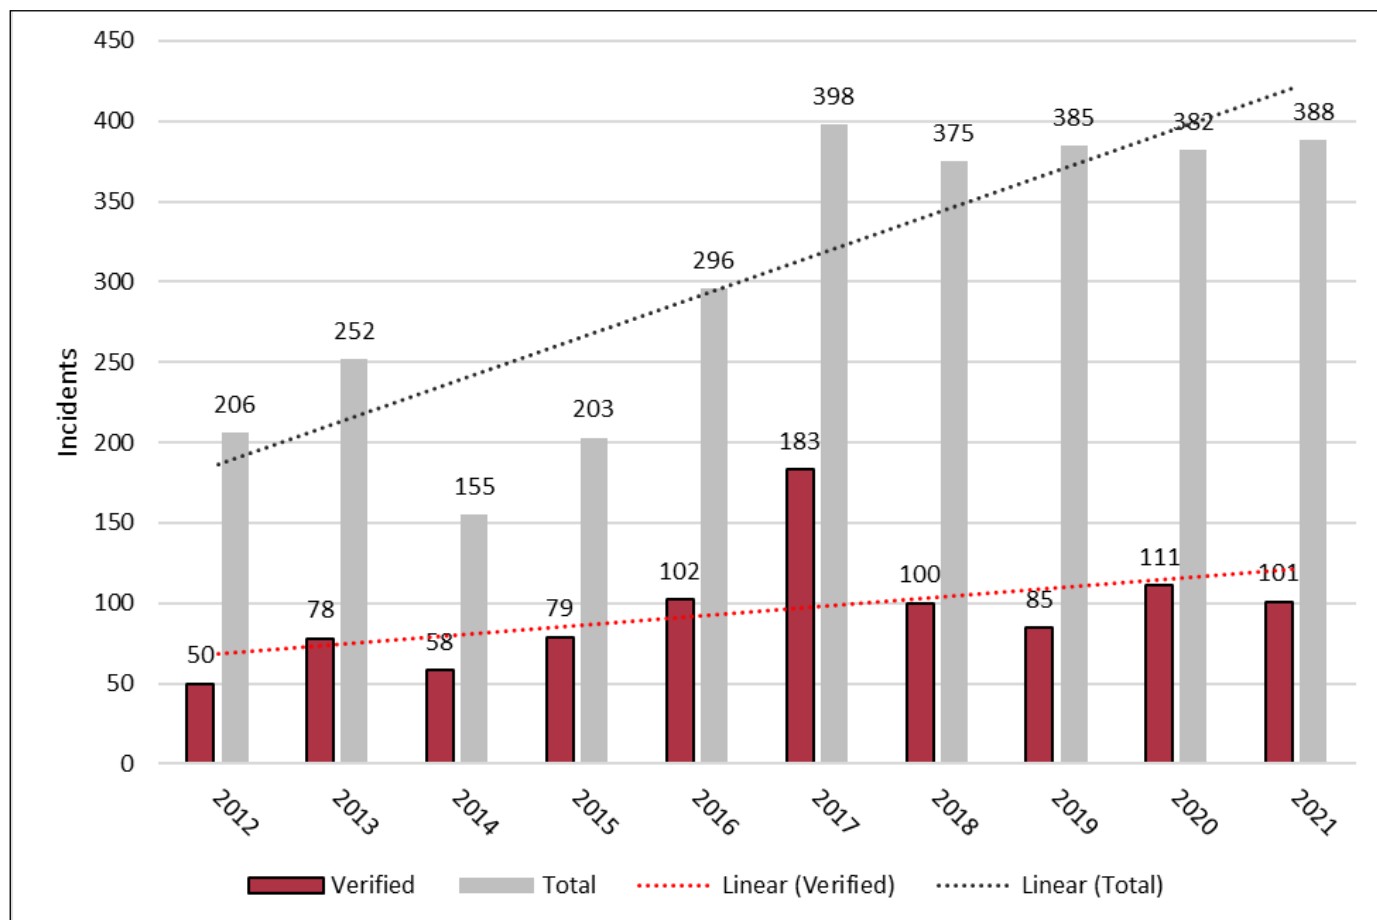

Figure 17: This shows a comparison of verified incidents and all reports from 2012 - 2021.

County	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021

Figure 18: This shows the total reports submitted per county from 2012 - 2021. N/0 indicates no reports submitted or zero reports of hate bias incidents.

During a follow-up review of reporting for the previous ten years, incident totals for each county were reviewed and updated. The following county incident totals were updated for 2019 in this report: Frederick, Wicomico, and Worcester. Overall statewide numbers did not change.

VI. Considerations

In summary, law enforcement and other human relations agencies across the state should continue to monitor hate bias related problems in their communities. Maryland citizens and law enforcement agencies must continually be diligent in reporting hate bias incidents. Law enforcement personnel are often the first to arrive on the scene of hate bias incidents. In order to meet the needs of the community, training on the recognition, investigation, and reporting of potential hate bias crimes and incidents remains important. It is equally important to encourage the cooperation of law enforcement and the community in addressing hate bias. The concept of community policing throughout Maryland should continue to incorporate hate bias related issues.

If additional information is required concerning this

report, please contact the Maryland Coordination and Analysis Center at 1-800-492-8477.

VII. Hate Crime Laws

Anti-hate crime acts impacting Maryland include the following:

The Matthew Shepard and James Byrd, Jr. Hate Crimes Prevention Act - On 28 October 2009, President Obama signed this piece of legislation into law. It is attached to the National Defense Authorization Act for fiscal year 2010.[ii] This law expanded existing United States federal hate crime law to include crimes motivated by a victim's actual or perceived gender, sexual orientation, gender identity, or disability, and dropped the prerequisite that the victim be engaging in a federally protected activity.

Hate Crimes Prevention Act of 1999 - This act prohibits persons from interfering with an individual's federal rights (e.g., voting or employment) by violence or threat of violence due to race, color, religion, or national origin. This act allows more authority for the Federal Government to investigate and prosecute hate crime offenders who committed their crime because of perceived sexual orientation, gender, or disability of the victim. It also permits the Federal Government to prosecute without having to prove that the victim was attacked because he or she was performing a federally protected activity.

Campus Hate Crimes Right to Know Act of 1997 - This act requires campus security/police authorities to collect and report data on hate crimes committed on the basis of race, gender, religion, sexual orientation, ethnicity, or disability.

The Church Arson Prevention Act of 1996 - This act created the National Church Arson Task Force (NCATF) in June 1996 to oversee the investigation and prosecution of arson at houses of worship around the country. The NCATF has brought together FBI, Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF), and Department of Justice prosecutors in partnership with State and local law enforcement officers and prosecutors. In addition to the NCATF's creation, the law allowed for broader federal criminal jurisdiction to aid criminal prosecutions and established a loan guarantee recovery fund for rebuilding.

The Hate Crimes Sentencing Enhancement Act - As a part of the 1994 Crime Act, the Hate Crimes Sentencing Enhancement Act provides for longer sentences when the offense is determined to be a hate crime. A longer sentence may be imposed if it is proven that a crime against a person or property was motivated by "race, color, religion, national origin, ethnicity, gender, disability, or sexual orientation."

The Hate Crimes Statistics Act of 1990 - This act requires the Department of Justice to collect data on hate crimes. Hate crimes are defined as "manifest prejudice based on race, religion, sexual orientation, or ethnicity." The FBI compiles these statistics using the Uniform Crime Reporting (UCR) system. The Crime Act of 1994 also requires the FBI to collect data on hate crimes involving disability.

Maryland Code Public Safety § 2-307 - "(a) The Department shall collect, analyze, and disseminate information about the incidence of crime in the State. (b -1) The Department shall collect and analyze information about incidents apparently directed against an individual or group because of race, religion, ethnicity, or sexual orientation.

Maryland extended hate crimes protection to homeless people under a bill signed on 7 May 2009. The bill added homelessness to the protected categories under Maryland's hate crimes law, allowing prosecutors to seek tougher penalties as they do for those who target people because of factors such as race, ethnicity, religion, and sexual orientation.[iii]

In 2019, Public Safety Article 20 Section 2–307 modified hate bias reporting requirements to collect and analyze incidents directed against an individual or a group because of color, religious beliefs, sexual orientation, gender, disability, national origin, or homelessness.

Maryland Code Criminal Law Subtitle 3 § 10-304 added homeless persons and groups and gender to the protected classes under State hate crime statutes. "Because of another's race, color, religious beliefs, sexual orientation, gender, disability, or national origin, or because another is homeless, a person may not: (1-i) commit a crime or attempt to commit a crime against that person; (1-ii) damage the real or personal property of that person; (1-iii) deface, damage, or destroy, or attempt to deface, damage, or destroy the real or personal property of that person; or (1-iv) burn or attempt to burn an object on the real or personal property of that person."

In March 2014, the Maryland General Assembly passed legislation adding "transgender" people to the list of protected classes. The law prohibits discrimination based on gender identity in housing and employment, in obtaining credit, and in access to public accommodations. This law took effect on 1 October 2014.[iv]

In 2020, Criminal Law Section 10–305.1 was modified, and now prohibits a person from using an item or symbol, including a swastika or a noose, to threaten or intimidate another, creating criminal and monetary penalties.

Maryland General Assembly modified the same section again redefining gender identity to align with the definition with other laws.

This product was developed by the Maryland Department of State Police in partnership with the Maryland Coordination and Analysis Center.

The data behind this report comes from the Maryland Supplementary Hate Bias Incident Reporting, which is mandated for all Maryland law enforcement agencies to complete when a hate bias incident is encountered. The requirement collects information on date, time, incident type, bias motivation, clearance, victim and offender demographics, location, weapons used, injuries, value of property damage, and a written summary of the incident, amongst other things.

The information reported is based on individual agency policy and procedures, as well as the individual officer's level of training and expertise. The reports are collected by the Maryland Department of State Police Central Records Division as mandated by law and are then provided to the MCAC. If a hate bias incident occurs and is not reported to law enforcement, an incident report is not filled out and is not submitted. All incidents included in this analysis are counted as to what they are marked upon their most current receipt. This analysis is current as of 1 July 2022. Incident reports received after 1 July 2022 will be reflected in the 2022 report.

Assistance from the Maryland State Police and the Maryland Coordination and Analysis Center is available to any law enforcement agency that collects the information for investigative and reporting purposes.
